

# Euro Challenge

An exciting educational competition  
for high school students to learn about  
the European Union and the Euro

*The top 2 teams in the Euro Challenge 2016 visit the  
Delegation of the European Union to the U.S. in  
Washington, DC.*

*"I was able to learn about a subject I knew  
nothing about. It was intellectually challenging  
which I so very much appreciate. The  
European Union, and subjects related to it, are  
not talked about in the school system. I love  
having this knowledge!"*

**Euro Challenge 2016 Semifinalist**

## REGISTER NOW FOR THE EURO CHALLENGE 2017

You are warmly invited to participate in the Euro Challenge 2017, an exciting competition-based program for 9th and 10th grade students who are passionate about world history, European studies, and economics. The program, developed by the Delegation of the European Union to the United States, aims to increase students' knowledge of the Euro Area and its single currency, the euro, through a unique learning experience that moves students out of the classroom into the real world.

Working in teams of 3-5, students make presentations to a panel of judges about the current state of the economy in the Euro Area. They also select a country and then identify, explain, and recommend a policy or policies to address an economic challenge facing that specific Euro Area country. Students compete in regional preliminary round heats and advancing schools compete in semi-final and final rounds that take place at the Federal Reserve Bank in New York City in April.

The Moody's Foundation generously provides the top five teams with monetary rewards and the top two placing teams earn a free trip to Washington, D.C. where they deliver their presentations to the embassy of the country they researched.

The competition does not require previous knowledge of economics or Europe. Students and teachers can gain access to an array of educational resources and training materials on our website: <http://www.euro-challenge.org>. Free orientations, webinars, and news flashes are also provided throughout the year.

Help your students experience the history that is unfolding before our eyes in the Euro Area. Register to participate in the Euro Challenge 2017! Simply visit the link below. Participation is FREE!
